When it comes to life and what we believe about life, from the moment of conception until our final breath, that belief must be formed from what God's Word states. It is our source of _____.

1. What should we believe about life?

Life _____ from God.

- A) God is the source of _____ life. (**Genesis 1:1, 2:7**)
- B) God is the source of _____ life. (**Acts 17:25; Job 10:8; Ps 139:13-16**)

Children are ultimately by God's _____, not ours.

Scripture teaches us that God both _____ (**Genesis 30:1-2; 1 Samuel 1:5**) and _____ the womb! (**Genesis 30:22-24, 33:5; 1 Samuel 1:19-20**)

Children are a _____ from God! (**Psalms 127:3-5**)

Another important truth that we must understand as we are dealing with what we believe about life is that...

We were all created in the _____ of God. (Genesis 1:27)

This is only said about humanity! Nothing else that God created was created in His image. That makes us the most precious and prized of all creation.

2. How do we live out what we believe about life?

We must _____ and _____ life!

- A) We promote life by _____ it! (**Genesis 1:28; 9:1; Philippians 4:19**)
- B) We protect life by _____ it!

We must take a _____ for life! (**Exodus 20:13**)

If innocent human beings are in danger, those who love and serve God are to come to their _____. (**Proverbs 24:11-12**)

Ministries such as pregnancy care centers and adoption agencies need our _____ now more than ever.
